

Technical Data Sheet

Potentostatic Electrode Large Gold

Temperature:	0...80°C
Max. working pressure:	6 bar
Shaft Material:	Glass
Diaphragm:	Ceramic
Diameter:	12 mm
Length:	120 mm
Connector:	MP12, PG13.5 thread (alternative also with fix-cable)
Electrodes:	2x gold ring (7x10 mm)
Minimum immersion depth:	35 mm
Electrolyte:	Gel
Reference system:	Ag/AgCl cartridge

Connection: brown: Ring top, white: Ring bottom, Shield: Reference
